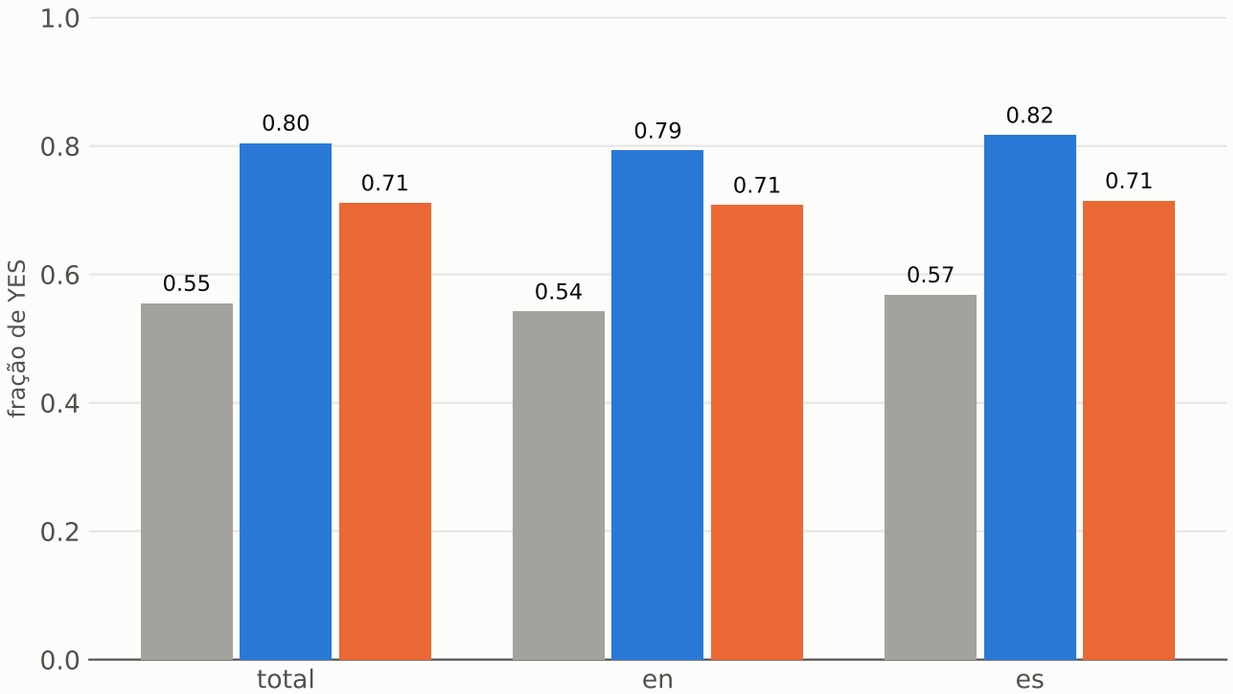
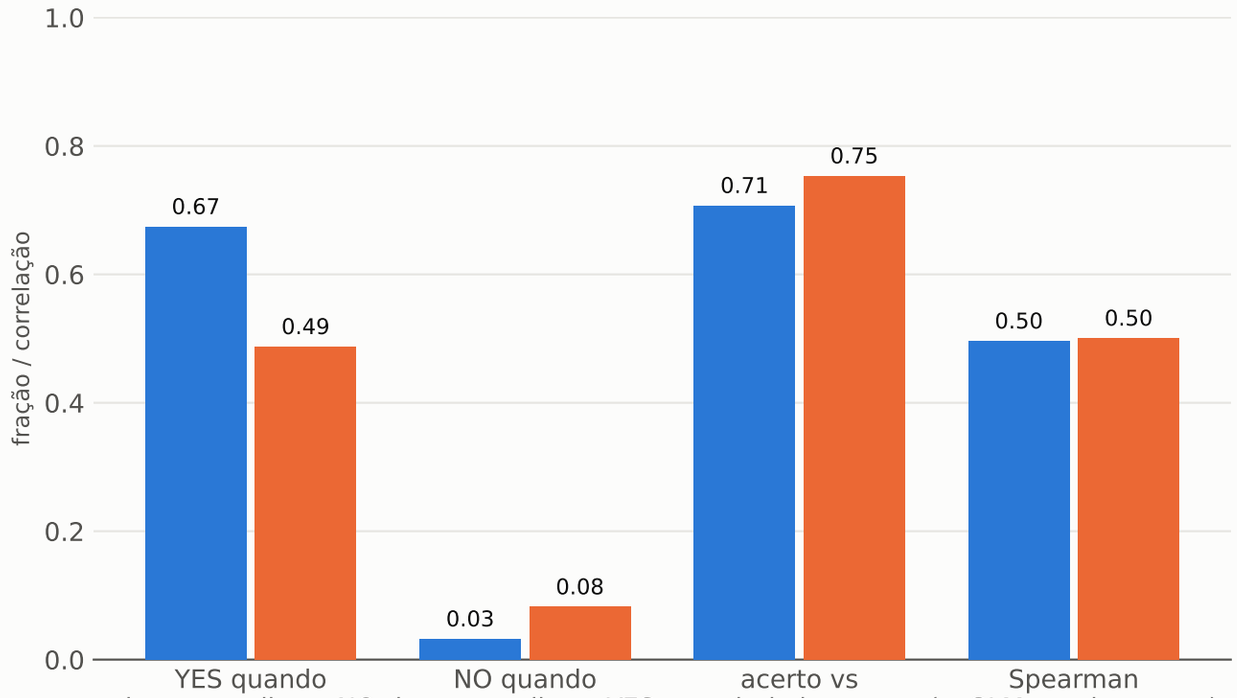
GLM-4.6V-Flash com thinking desligado vs ligado · 3381 memes de treino · P1–P3, seed 42

humanos (média de p_YES) · thinking desligado · thinking ligado

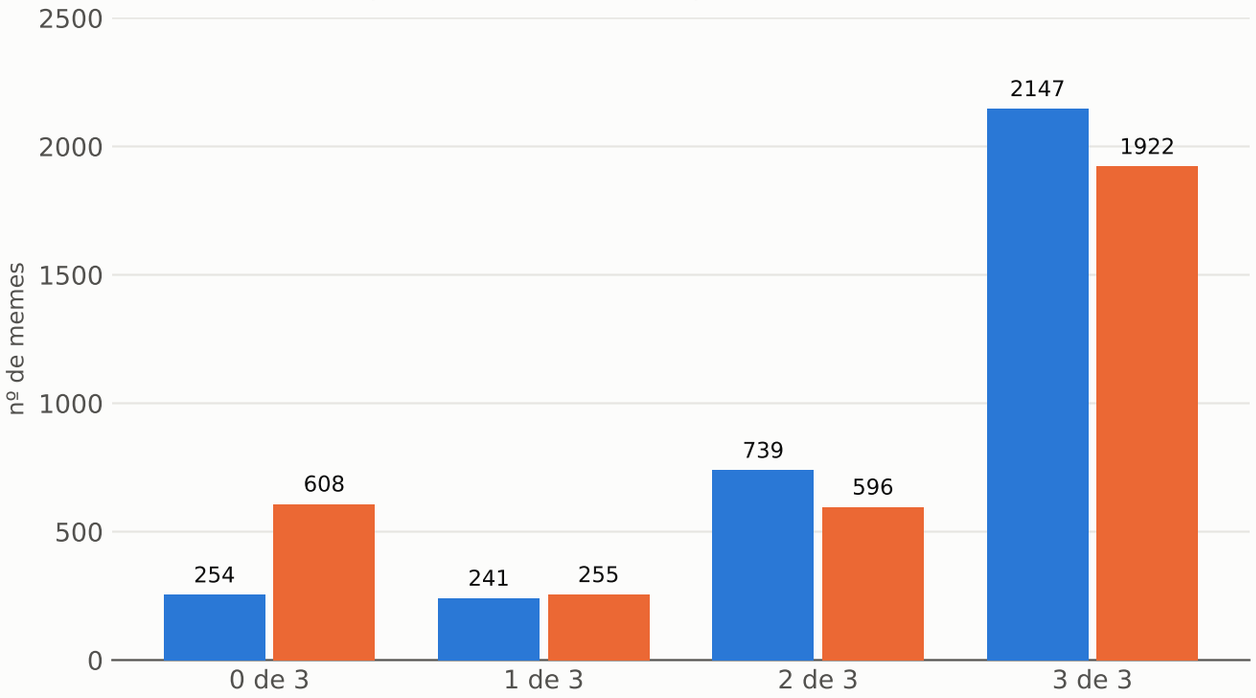
1 · Taxa de YES: o thinking reduz, mas fica acima dos humanos



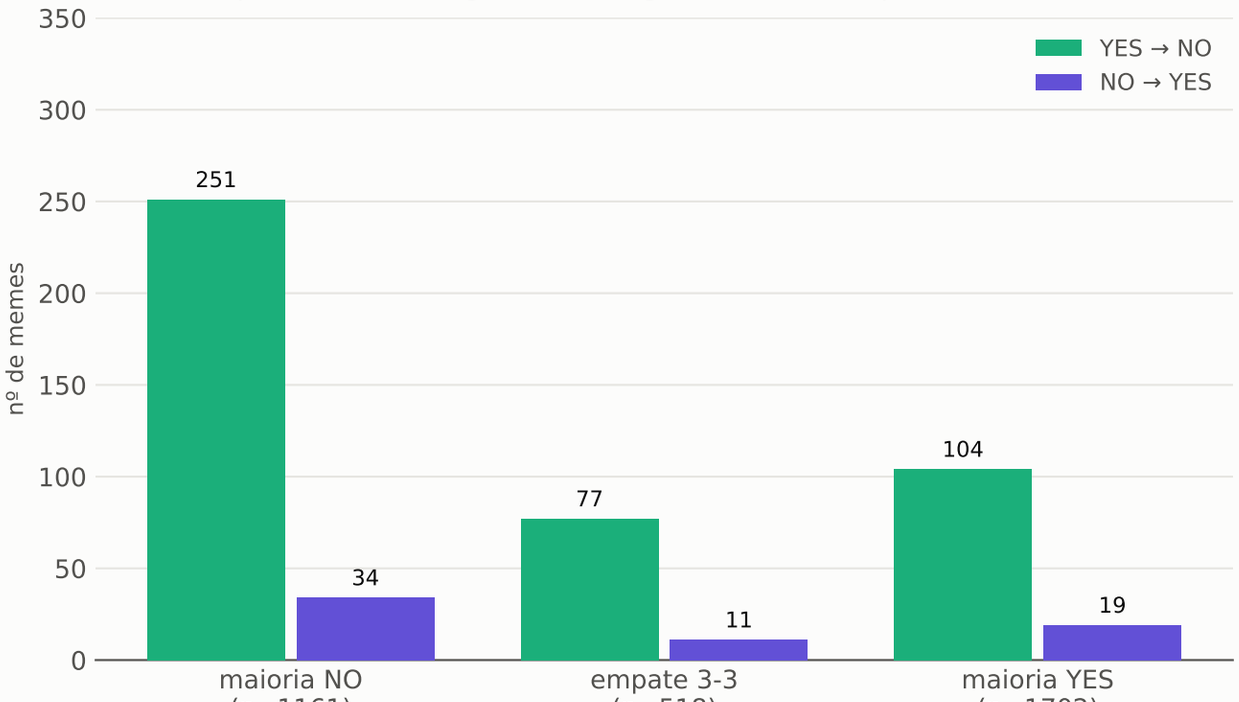
2 · Erros: o thinking corta o falso YES; a ordenação não muda



3 · Quantas das 3 paráfrases dizem YES, por meme



4 · Votos que mudam ao ligar o thinking (maioria das 3 paráfrases)



Maioria humana = p_YES dos 6 anotadores > 0,5 (YES) ou < 0,5 (NO). Spearman = correlação de ranks entre a fração de YES do GLM e a dos humanos.
